

A EXERCISE • 實戰演練

Question: How do you go to work or school? Tell us about your daily commute.

My morning commute starts with a subway ride to work. Once I get off the subway, so I have to walk for about 10 or 15 minutes to get to my workplace. But actually, I really enjoy walking. It's healthier and it gives me some time to, sort of, relax and have space before I arrive at work. During rush hour the traffic gets really busy. Or if I am not in a hurry, I'll try to take a bus, because I can enjoy the city view.
