Strong Winds Weather Report: Gusty Conditions Impacting the Region

Our region is currently experiencing a significant weather event of strong winds, which are having various impacts across the area.

Winds have intensified, with sustained speeds reaching 90 mph. These strong winds are attributed to a growing hurricane, and they are expected to continue throughout the day.

The powerful gusts are affecting multiple aspects of daily life. Travel disruptions are occurring, with flight delays, road closures, and restrictions on bridges and highways. Motorists and pedestrians are urged to exercise caution due to the potential for blowing debris.

B LANGUAGE FOCUS • 學習焦點

- i **S + V... , with + N. + V-ing/p.p./Adjective.**
- *Winds have intensified, with sustained speeds reaching 90 mph.*
 - *I stood up there with my heart beating so fast.*
