High Heat Weather Report: Sweltering Conditions Grip the Region

Our region is in the middle of a relentless heatwave, with scorching temperatures and oppressive conditions in the weather forecast.

The mercury is soaring, with daytime highs consistently exceeding 120°F. The combination of high temperatures, minimal cloud cover, and low humidity levels is creating an environment of extreme heat.

Residents are advised to take precautions to protect themselves from the scorching conditions. Stay hydrated by drinking plenty of water, limit outdoor activities during peak heat hours, and seek shade or air-conditioned spaces whenever possible.

B LANGUAGE FOCUS • 學習焦點

i be advised to + Verb

- Residents are advised to take precautions to protect themselves from the scorching conditions.
- Customers are advised to make seat reservations well in advance.

C WORDS & PHRASES • 詞彙片語
